The opening screens of

Automated Executor / Private Family Auction

A look inside the service itself, exactly as your family will see it: the opening screens of the private auction site, word for word, plus the worked settlement example the service is built on. Nothing rewritten or summarised.

The full service: https://everready-family.com/product/ER-AUTO-001

EverReady Family — your private site is set up after checkout.

Private Family Auction

Keep peace with family.

Your family's own private auction

When a family has to divide a household, the fair way is to let everyone bid — openly, where every bid is visible to the whole family. This is a private website for your family only: the organizer lists the items, each heir gets their own link, everyone bids in the open, and when it closes the settlement math is done for you — who won what, and who pays whom, balanced to the penny.

One price — $49 — for your family's site. Nothing else to buy.

Already bought it?

Your organizer link was emailed to the address you bought with. If it is lost, enter that email here and we will send a fresh link (the old one stops working).

Organizer tools

Name your family auction. The organizer names the family, invites the heirs, lists the items, and closes the auction.

Invite family

Each heir gets their own link, and their own equal share in the settlement. If you want to bid too, add yourself here as a family member — bidding is for members, organizing is for you.

Add an item

What is it? Anything the family should know? (You can skip this.) Starting bid in dollars (you can leave this blank). A photo, if you have one.

The items

Every item the organizer lists, with its photo, its description, and every bid — open to the whole family, with the full bid history on every item. There is no sealed or blind bidding.

Settlement — the math, done for you

Every closed item counts toward the pot. Each family member holds one equal share. Winning more than your share means paying the difference in; winning less means it comes back to you.

SAMPLE EXCERPT — full service available at the link on the cover sheet

The worked check the service is built on: items $210 + $180 won by Susan, $150 won by Tom, Mike wins nothing; three heirs — $180 shares. Susan pays Tom $30 and Mike $180.

Close the auction

Closing ends all bidding and settles every item that has a bid. This cannot be undone.

Record of everything

Every bid, every item, every change — kept in order. This record is only shown to the organizer.

EverReady Family provides organization tools, not legal advice. When in doubt, talk to an attorney.
